

ADD-ON

CELLBOARD® Cablelock

Do your mobile shelf chargers tend to go missing?
The Cablelock accessory enhances
your Cellboard in a simple
and smart way.

Cablelock is a separate steel rail that is easily
mounted onto the existing cable channel of your
Cellboard in just a few simple steps. With four screws,
it stays securely in place, locking both the power strip
and charging cables so they always remain where they
should be.

Feel free to contact us for more information!

Secures
chargers and
cables!

CABLELOCK

Weight: 1 kg | **Length:** 260 mm | **Height:** 90 mm
